New York, Aug. 12.—The Commercial Advertiser's London financial cablegram: Business was not increased on the stock exchange today, although the tone was universally cheerful on a belief that a very early settlement of the Boer war is at hand, and Kitchener's latest haul confirming this hope of an early ending of the war. American stocks opened strong on the dissensions among the steel workers. Prices moved quickly in a narrow market. The close was buoyant on New York support.

New York, Aug. 13.—The metal market was quiet today. The uncertainty regarding the settlement of the strike had much to do with the prevailing duliness, and in the absence of business, values were more or less nominal. Tin was very quiet and nominally quoted at 37.0927.5, while in London pig tin was 2s 6d lower, which closed spot at £118 17s 6d, and futures at £112 18s 6d.

Locally, copper was neminally unchanged at 185-2017 for lake and 185-2017 for casting. Under light liquidation prices in London fell off is 3d, spot standing at the close at £5 8s 9d and futures at £35 17s 6d, thus establishing a new low record for the past three years.

Lead was dull all around. Here spot closed at 437½ and in London £11 18s. Spelter was featureless at 339-235. London spet closed at £16 12s 6d, with trade slow.
